

6th Grade Unit 6: Lesson 29-1

Check Your Understanding (p. 380):

5. Range is the distance between the minimum value and the maximum value. The range is the same for classes 1 and 2, but the range is smaller for class 3 where the grades are less spread out.
6. a. range = 16
b. range = 72
7. Answers will vary. If the ages of the members of my group are: 12, 13, 13, 14, then the range of the data is 2.

Lesson 29-1 Practice (p. 381):

8. a. 25
b. skewed left
c. median
9. 73
10. 20
11. 25
12. a. 8
b. symmetrical
c. mean
